

Ladakh Tri-Adventure - Expedition Information Pack

Pre-Expedition Preparation:

In this document, you will find detailed information on fitness & training, the necessary equipment, tourist visas, travel insurance, medical advice, temperatures & climate, altitude considerations, spending money and tips. Please review this information in full and prepare yourself for this fantastic adventure! We have also included information about India, an FAQ and the expedition itinerary with details on what's included and excluded.

Fitness & Training:

Tri-Adventure expeditions are very demanding and participants need to have a good level of fitness. These events have been specifically designed to challenge people. The expedition involves four days on the bikes, followed by four tough days of trekking and then two days of rafting, all at high altitude. The group moves at a comfortable pace and nobody is ever left behind. Nevertheless, it is your responsibility to contact us if you have any concerns regarding your level of fitness, health or ability to complete the trek. We strongly recommend that you read the expedition itinerary in full before signing up to this challenge.

Everybody is different, so we cannot recommend a specific pre-expedition fitness programme. However please remember the fitter you are the more you will enjoy the expedition.

As a guide to how fit you should be to attempt this trek we have decided to give you some measurable training goals. With an 8kg backpack you should be able to complete the following routes from start to finish in the following time frame. Don't worry if you cannot complete the walks in the suggested time at first, your fitness will improve rapidly by undertaking cardiovascular exercise 3 to 4 times per week.

Walk	Route	Time
Carrauntoohill (Kerry)	Caher (Coomloughra) Route	6 hrs
Croagh Patrick (Mayo)	Main Route	3/4 hrs
Galtymore (Tipperary)	Black Road Route	4/5 hrs
Lugnaquilla (Wicklow)	Camara Hill Route	4/5 hrs
Spink (Wicklow)	Looped Walk Route	3/4 hrs

Please do not attempt these walks alone. You or someone in your party should have walking experience and the necessary navigational skills. If you would like to hire a guide to take you on one of these walks please contact us to be put in touch with a qualified mountain leader.

On the four days of biking the pace will be slow however there are some very long and steep hills and you will be in the saddle for six hours on most days. To prepare yourself for this part of the challenge you should complete long slow bike rides. Start with shorter rides and then work up to be out for at least two hours at a time.

Although hillwalking or biking is best, please remember any type of cardiovascular training will help you prepare for this expedition. Focus your training on building endurance fitness by completing long, slow and low intensity training sessions rather than fast and short sessions. Build the distance and duration of your training sessions slowly as over training often leads to injury. In the three months prior to departure try to include two long training days in a row to replicate walking for continuous days on the expedition.

If you have any old injuries, weak joints, soft tissue injuries or any other issues which affect your mobility we suggest you address these issues now. It goes without saying that if you are experiencing discomfort or pain during short training sessions the problem has the potential to become more serious when exercising for long durations on continuous days. Please visit your physiotherapist in an effort to address the issue and strengthen the weakened area. If you have low muscle mass in your legs, we suggest that you add strength training to your schedule. Muscle mass protects our joints and this is very important especially on long descents.

If you are buying any new equipment for this expedition such as a rucksack, boots, base layers etc., be sure to use it before departure. All gear should be well broken in to avoid blisters and chafing!

The itinerary has been designed with correct acclimatisation in mind with no big jumps in elevation. While on the expedition you will be encouraged to take it easy, eat well and stay very hydrated. Very hydrated means drinking between three and five litres of water per day depending on how much you sweat. Drinking three or more litres in a day is much harder than it sounds. We would recommend people practice drinking a large amount of water. Try drinking from a 500ml water bottle and see how many times you can refill it in a day. In our experience, it is those who cannot stay well hydrated that run into problems at altitude. Although your ability to withstand high altitudes is not directly related to your physical fitness levels, a good level of fitness will certainly assist in your general stamina.

It is not uncommon for people to encounter stomach problems on expeditions. This is due to a number of reasons such as poor hygiene, change in diet, a low immune system and poorly prepared food. We do everything we can to make sure food and water is safe for you to consume. It is very important that you wash your hands before eating and after going to toilet. We recommend people eat as healthily as possible and take a multivitamin supplement and probiotics for one month prior to departure and during the expedition. This will help you adjust to changes in your diet and keep you healthy throughout the expedition.

Earth's Edge Pre-Departure Weekends:

We hold pre-departure weekends prior to all expeditions. Attending your pre-departure weekend is compulsory as they form a key part to preparing you for your upcoming adventure! You will meet an expedition leader, expedition doctor and your fellow adventurers! An experienced expedition leader will be giving a full expedition brief, leading two training hikes and sharing expert advice on all aspects of the expedition. These events are also a lot of fun and they take place in Glendalough, Co. Wicklow, which is a stunning location!

Equipment:

The following is what we recommend you take, and is a guideline of what to bring on this expedition. You are responsible for having the necessary personal equipment you need for this trek. When you sign up to an Earth's Edge expedition you are entitled to a loyalty card with our equipment partner; Great Outdoors. Great Outdoors have an excellent range of expedition equipment, very knowledgeable staff and are 100% Irish owned. The loyalty card entitles you to a 15% discount until the day your expedition departs and 10% discount thereafter.

EQUIPMENT CHECKLIST	
Walking boots. If you are buying new boots for this trip please ensure they are well broken in before departure. Few things will make you more miserable during the trek than blisters.	
Runners for Cycling (You may bring SPD shoes although they are not necessary. If you do bring them you will need to bring pedals as well)	
Two pairs of thick socks and two pairs of thin socks.	
A long sleeved shirt for sun protection on hot days.	
Underwear, we recommend you bring enough so you are comfortable at all times. Synthetic rather than cotton underwear is advisable.	
Shorts x 1.	
Two pairs of lightweight trousers or pants, one for trekking and one to wear at night.	
A good thermal (polypropylene) layer consisting of long johns and pullover.	
Cycling shorts	
Cycling gloves	
Waterproof trousers (N.B. make sure the trousers have zips to the knee at least).	
Long sleeve base layers x 2 (silk, wool, or synthetic).	
Short sleeve base layer x 2 (as above).	
A light weight fleece.	
A down jacket. It must be heavy weight with a hood (at least 600 grams in weight).	
Waterproof jacket.	
A fleece hat to wear in the mornings and evenings.	
A pair of lightweight wool or synthetic liner gloves.	
A pair of waterproof gloves or mitts (down mitts are preferable).	
Sunglasses (category 3).	
A sun hat with a wide brim to cover the face and neck.	
Walking poles.	
Daypack: This is a small rucksack (30 to 35 litres) to carry the equipment you will need while trekking such as your camera, spare jacket, waterproof jacket, water bottle and packed lunch.	
Duffel bag (90 litres) or large rucksack to carry your equipment while trekking. We recommend you use something strong and sturdy as this bag will be carried by the support team.	
Dry bags (if either your day bag or duffel bag don't have sufficient waterproofing and to separate your equipment in your bags).	
Swimming togs and board shorts suitable for rafting.	
Water bottles and water bladder. You must have the capacity to carry three litres of water.	
A warm sleeping bag (comfort rating of -15°C or lower).	
Suncream at least factor 30.	
SPF lip balm.	
Insect repellent, deet based products are best.	
Hand sanitiser. You need to have enough supplies for the duration of your expedition.	
Toiletries, N.B as little as possible, if you are travelling with friends try to share toiletries. * Wet wipes are very useful.	
Personal first aid kit. You need to have enough supplies for the duration of your expedition. We recommend you carry the following: <ul style="list-style-type: none"> • Rehydration salts • Plasters • Compeed 	

<ul style="list-style-type: none"> • Paracetamol • Imodium • Motilium • Throat lozenges • Nasal spray • Decongestant such as Sudafed • Antibiotics suitable to treat traveller's diarrhoea <p><i>Azithromycin or something with similar coverage would be the most suitable antibiotic, please consult your doctor for up-to-date advice. The expedition medic will have a full medical kit to deal with issues of a more serious nature.</i></p>	
<p>Personal medication.</p> <ul style="list-style-type: none"> • Malarial Prophylaxis (consult with your own GP or the Travel Health Clinic) <p>Please carry any medication you are currently taking on a regular basis such as:</p> <ul style="list-style-type: none"> • Asthma inhalers • Nutritional supplements • Blood pressure tablets <p>If you suffer or have suffered from any skin condition, bring appropriate creams such as:</p> <ul style="list-style-type: none"> • Canesten • Zovirax • Anusol • Hydrocortisone 1% 	
Small towel for washing.	
Personal snacks; although sufficient food is supplied throughout the trek you need to bring your own supply of high energy snacks for the expedition. Bring snacks you enjoy eating such as sweets, energy bars & chocolate.	
Headtorch with spare batteries.	
A spare set of clothes to wear after you finish the expedition.	
A photocopy of your travel insurance and passport.	
Your vaccination booklet.	
OPTIONAL ITEMS	
Diamox (tablet form not capsules); if you have decided to take it. For more information about Diamox its uses and side effects please refer to the information on AMS and Diamox in this document.	
We ensure that all drinking water provided to you is treated correctly but you may still wish to bring your own personal supply of tablets/drops for water purification such as iodine or chlorine. Powdered fruit juice can be used to disguise the taste of the purification.	
A sleeping bag liner (This is not essential but it helps to keep your sleeping bag clean and adds an extra season).	
Thermarest.	
Ear plugs.	
For glasses/contact wearers we advise bringing both glasses & contact lenses. Daily disposable lenses rather than monthlies are highly recommended.	
A camera.	
A book and/or writing paper.	
Lanacane or chamois cream for cycling.	
Hand warmer sachets.	

Tourist Visas:

At the time of writing, single entry visas are required by citizens of IRE, UK, AUS, NZ, USA, CAN – other nationalities should consult the relevant consulate. Please contact your local consular office for particular information regarding travel from your country. Visa requirements are subject to change and should be confirmed before departure. Allow plenty of time to obtain your visa. We will send all participants a visa help sheet to guide you through the process.

Travel Insurance:

It is your responsibility to ensure that you have sufficient personal travel insurance for this expedition. Your policy must provide cover for; a) medical injury or sickness b) trekking up to 5,100 metres, mountain biking and rafting on class IV white water (c) helicopter evacuation in an emergency situation, and d) repatriation to country of residence. You must declare any pre-existing medical conditions to your insurers and ensure you receive written confirmation that any pre-existing medical conditions are fully insured. We advise you to obtain travel insurance as soon as you book that will cover you for unforeseeable circumstances, such as illness or injury that might result in you not being able to take part in your expedition. We recommend Campbell Irvine for your travel insurance requirements as their policies cover a, b, c & d as above and include cancellation cover. To contact Campbell Irvine call [+44 844 826 2722](tel:+448448262722) or go to their website www.campbellirvinedirect.com/earthsedge.

Vaccinations & Prophylaxis:

We are not qualified to answer all your questions about travel health directly. We recommend consulting your GP or The Travel Health Clinic (www.travelhealth.ie) for the most up to date medical advice. When you sign up for this event we will email you specific advice supplied to us by the Travel Health Clinic which details what is required for this destination.

Medical:

Before departure you will be required to complete an extensive medical questionnaire. It is for your own safety that we require you to disclose as much detail about your medical history as possible. The information you supply is treated with the strictest confidence. We will do our best to accommodate everyone on this expedition, but we do reserve the right to refuse participation if we feel your safety or that of the group may be compromised. All participants on Earth's Edge expeditions are required to have a medical form completed by their own doctor. We recommend you do this at the same time you see your doctor for travel vaccines (if required). These measures are put in place for the safety of all participants on the trek.

Temperatures & Climate:

Temperatures on the expedition may vary from 0 to 30 degrees during the day and -10 to 10 degrees at night. It's best to be prepared for lower temperatures due to wind chill or the weather turning bad. Usually the days are hot and the nights are cold. You should be ready for inclement weather at all times as the weather can change rather quickly at high altitude. For accurate weather information please review these two websites;

Mountain Forecasts: www.mountain-forecast.com/

Norwegian Meteorological Institute: www.yr.no

Altitude Considerations:

The human body is quite capable of adapting to a very wide range of barometric pressures and there is plenty of oxygen even at the highest point of this expedition. However, the process of adaptation or acclimatisation does take time and the most important rule is to gain height slowly. Keeping well hydrated is also a huge factor in avoiding AMS (Acute Mountain Sickness). AMS is brought on by lower oxygen levels at higher altitudes. Symptoms include breathlessness, headache, poor sleep, nausea & dizziness. AMS is treated simply by not ascending to higher elevations or in more severe cases

descending to lower elevations, where in most cases the symptoms are quickly relieved. This itinerary has been designed to minimise the chances of you getting altitude sickness. Our guides are highly experienced in these matters and will be able to give you good advice to help minimise any temporary discomfort that you might experience. If you have suffered serious problems at altitude before, you should seek the advice of your doctor or a specialist. Please note it is common for most people to experience mild headaches on the summit day of this expedition. Always keep your guide informed on how you are feeling.

Diamox:

Diamox (Acetazolamide) is a carbonic anhydrase inhibitor. In simple terms Diamox causes the kidneys to excrete more bicarbonate which causes the blood to become more acidic. Acidifying the blood stimulates ventilation, which increases the amount of oxygen in the blood which reduces the chances of getting AMS. We recommend all participants, especially those who have had AMS in the past, to take Diamox prophylactically (as a preventative), starting on the first day you arrive in Leh. Current guidelines suggest 125 mg twice per day (in tablet form not capsules). You should try taking Diamox for two days at some stage prior to departing Ireland to ensure you don't suffer any of the more serious side effects. Numbness and tingly fingers and toes are common but in some cases users can suffer from nausea, vomiting or diarrhoea. If you experience any of the latter three side-effects we would advise against using Diamox. Always consult and follow the advice of your own doctor about Diamox or any other medication.

Spending Money & Tips:

We recommend that you carry €300 with you to India in mixed notes. Euro can be exchanged to Rupees easily in Delhi and Leh. There are also some ATMs where you can withdraw cash using a credit card. Tipping is common in India. We recommend you tip if you are happy with the service. Our recommended tip is 6000INR (€80). Please give your tip to the Expedition Leader and he/she will distribute the tip evenly among all staff. The recommended spending amount above includes the tip for the local staff.

About Ladakh:

We advise all participants to educate themselves on local laws and customs before travelling to India. Up to date travel advice can be found on the [DFA website](#).

Area:	India; 3,287,590 sq km Ladakh; 86,904 sq km
Population:	India; 1,236,344,631 Ladakh; 274,289
Official Languages:	India; Hindi & English Ladakh; Ladakhi (Bhoti).
Religion:	Buddhism & Islam.
Local Time:	GMT +5.30.
Local Currency:	Indian Rupee.
Currency for Exchange:	Euro, US Dollars or GBP.
Where to Exchange:	Most major towns – your Expedition Leader can advise you on arrival Worn or ripped Rupee notes may prove difficult to use, so beware of this when accepting notes.
ATMs:	Available in Delhi and Leh.
Credit Cards:	Are generally not accepted.

Up-to-date information concerning global exchange rates can be obtained at www.xe.com.

Ladakh Tri-Adventure Expedition Summary & Itinerary:

The Ladakh Tri-Adventure expedition is ideal for those who enjoy a challenge and have a good level of fitness. This expedition is divided into three sections; mountain biking, trekking and rafting. It covers a total distance of 270km.

Located in Ladakh on the edge of the Tibetan Plateau this entire trip is at high altitude and acclimatisation adds an extra element to this expedition. The route has a low point of 2940m and a high point of 5005m.

With over 90% of the population practising Buddhism, Ladakh is more like Tibet than India in many ways. The expedition gives a great insight into local culture with visits to monasteries, palaces, villages and markets all included.

Bike

The four day bike section covers a distance of 150km. The vast majority of which is on paved road. We will begin in Leh and follow the Indus for most of the journey, an area considered by most, to be the birth place of civilization. On the third day we climb away from the Indus towards the heart of Zaskar. The bike section is stunningly beautiful as well as a stern challenge. There are several tough climbs and the hardest being on the last day which is a full 6 hours of climbing.

Trek

The four day trek covers a distance of 50km in one of the most remote regions of the Himalayas. Apart from a few villagers we will have the trail to ourselves as we walk into the heart of Zaskar, the most remote district of Ladakh. It is a tough walk with many river crossings and four passes (4826m, 4390m 5005m & 3970m) to cross.

Raft/Kayak

We paddle 70km over two days on the Zaskar River, considered by many as one of the best rivers in the world. Once we start we are committed to reach the end of the canyon which has walls over 1000m deep and no road access. We raft all the way to the confluence of the Zaskar and Indus rivers completing this epic journey.

As well as enjoying 13 fantastic days in Ladakh you will see Delhi's best sights and enjoy plenty of retail therapy and delicious Indian cuisine.

Day 1: Dublin to Delhi.

Depart Dublin on an overnight flight to Delhi.

Day 2: Arrive Delhi.

You will be met at the airport and transferred to the hotel. Spend the afternoon and evening relaxing in your hotel room or taking in the sights of Delhi. Overnight hotel.

Day 3: Delhi to Leh (3,505 m): 1 hr.

Take the one hour flight to Leh, capital of Ladakh. This is an incredible flight over the greater Himalaya with spectacular views of K2 (8,611 m) among others. Overnight hotel.

Day 4: Acclimatise and sightseeing in Leh.

Spend the day in Leh to acclimatise. For the more energetic a visit to monasteries such as Shey, Thikse and Hemis will be arranged. Or choose to relax and walk around Leh. Visit markets, shops and outdoor restaurants. Enjoy the great views of Stok Kangri (6,153 m) and its surrounding peaks. Overnight hotel.

Day 5: Leh to Basgo (3260m), 45km, 5/6 hrs biking.

The first 10km are very easy as we cycle downhill through Leh, past the airport and on to the Indus river. We follow the Indus for one kilometre and then climb away from the river for 15km. After two hours we reach a small pass (3700m) and then have a nice downhill section as far as Nimu village for lunch. From Nimu the last 8km are relatively flat to reach Basgo. In the evening we visit Basgo Monastery built in the 16th century. It was the political and cultural centre in the early days of Ladakh. Situated on top of the hill towering over Basgo, it holds a unique atmosphere of secrecy and calm. Overnight camp.

Day 6: Basgo to Nurla (3046m), 47km, 6/7 hrs biking.

We start the day with a tough 8km climb out of Basgo to reach a small pass before descending again to the Indus at Saspol. This 10km descent is the most exciting section on the bikes. After Saspol we cross the Indus and then enjoy another fun section which follows the river as far as Gyera our lunch spot. After lunch we cross back over the Indus on a beautiful footbridge and follow the main road for 14km to reach Nurla. Overnight Camp.

Day 7: Nurla to Tarchit (3199m), 35km, 4 hrs biking.

An easier day today. The first 10km to Khalsi are relatively flat with just two short climbs. After Khalsi we cross the river and climb away from the Indus Valley. We follow the Yapola river up a beautiful canyon for two hours to reach our camp in Tarchit. In the evening we have time to visit Wanla monastery. Overnight camp.

Day 8: Tarchit to Hanupatta (3851m), 22km, 6 hrs biking.

This is the shortest day on the bikes but also the toughest. The first 10km is quite gentle with only 150m of height gain. After 10km we cross a small bridge and start to climb steadily. The final 12km of the route takes over four hours as we climb 500m on loose stone, sand and gravel. It's a very testing but rewarding day. Overnight camp.

Day 9: Hanupatta to Photosgar (4193m) via the Sirsir La pass (4826m), 18km, 8 hrs trekking.

The first three hours are quite easy as we follow the river ascending gradually. Once we move away from the river we climb steadily for three hours to reach the Sirsir La Pass (4826m). It's a tough hike but the views from the top are well worth it. From the pass it's another two hours to reach our campsite near Photosgar. Overnight camp.

Day 10: Photosgar to Sengge La base(4426m) via the Burniktse La pass (4390m), 12km, 5 hrs trekking.

We start the day with a gradual uphill walk to Burniktse La Pass (4390m) crossing it after two hours. From there it is relatively easy going with minimal altitude gain all the way to Sengge La base. Rest in the afternoon in preparation for tomorrow's walk. Overnight camp.

Day 11: Sengge La base to Yulchung (3850m), 13km, 8 hrs trekking.

Today is a tough day on the trek. We start by walking up a steep trail for three hours to reach the Sengge La Pass (5005m) the highest point on the expedition. The last 45 minutes to reach the pass are very steep. Upon arrival we are greeted with a beautiful vista of the Stok Range to the east and the Zaskar Range to the south. From the pass, the trail gradually descends to Yulchung. It's a stunningly beautiful route which takes over four hours to complete. Overnight camp.

Day 12: Yulchung to Nyerak (3470m), 8km, 4 hrs trekking.

From Yulchung we climb for 90 minutes to reach the Chuchokhuri La Pass (3970m) the final pass on the expedition. From the pass we descend steeply into the Grand Canyon of Asia to reach the Zanskar river. We cross the river on an impressive wooden footbridge and walk for one hour upstream to reach our campsite beside the river, near Nyerak village. The scenery on today's route from start to finish is majestic. In the afternoon we transfer our gear into dry-bags and prepare for the final leg of the expedition. Overnight camp.

Day 13: Nyerak to Lamaguru (3190m), 40km 5 hrs rafting/kayaking.

After an extensive safety brief we put on to the Zanskar river. We navigate some big whitewater as we pass through the deepest part of the Canyon. We run two big class IV rapids, '18 Down' and 'Constriction', where the river rushes through a 6-meter gap. As the canyon walls become less steep we reach Lamaguru and the Markha river. Overnight camp.

Day 14: Lamaguru to Nimu (2743m) to Leh, 30km on the river, 4 hrs rafting/kayaking.

On our second day of rafting we run 30km of class III(IV) whitewater to reach the Indus river and our finishing point at Nimu village. This section has the biggest rapids on the Zanskar. We have lunch in Nimu before driving back to Leh in time for a warm shower and a few beers in the evening. Overnight hotel.

Day 15: Leh to Delhi.

Take the amazing flight back down to Delhi over the Great Himalayan Range. Enjoy a full day in Delhi for shopping, sightseeing or relaxing. Overnight hotel.

Day 16: Depart India

After breakfast transfer to the international airport in time for your flight home to Dublin. Expedition ends.

Expedition Costs:

€399 deposit at the time of booking & €3,400 balance payment at least two months prior to departure - Total €3,799. Read our [best price guarantee](#).

*If you wish to pay for your trek in instalments, contact us for more information.

* Prices were set on January 8th, 2018.

EXPEDITION COSTS INCLUDE:

- International flights from Dublin to Delhi return economy class.
- Internal flights in India.
- Experienced Irish expedition leader accompanying you from Dublin airport.
- Experienced Irish expedition doctor accompanying you from Dublin airport.
- Earth's Edge Pre-Departure Weekends.
- Local English speaking guides, local cooks and muleteers.
- All accommodation based on twin sharing in hotels in Delhi and Leh and camping elsewhere.
- All meals and drinking water are included except in Delhi where accommodation is based on B&B.
- A celebratory dinner at the end of the expedition.
- All transport throughout the expedition.
- All group gear consisting of first aid kits, mountaineering equipment, cooking equipment etc.
- Mountain bikes and helmets.
- An Earth's Edge bandana for all participants.

EXPEDITION COSTS EXCLUDE:

- Personal travel insurance.
- Transfers to and from Dublin Airport.
- Medical vaccinations.
- Tourist visas.
- Personal equipment.
- Optional sightseeing in Delhi.
- Personal spending and tips.
- Expenses of a personal nature like laundry, phone calls, alcohol, excess baggage charges and any costs arising out of unforeseen circumstances such as bad weather, landslides, road conditions and any other circumstances beyond our control.

SHARE YOUR JOURNEY AND WIN A €300 ADVENTURE PACK:

On each expedition, one person will win an Earth's Edge Down jacket, Gore-Tex jacket and an environmentally friendly Keep-Cup. How do you win? Share your journey from start to finish on your Instagram. We want to see your gym sessions, your training hikes, your gear prep, and of course your photos of your amazing adventure with us! Simply let us know your Instagram handle, tag us in your post, and use our hashtag #EarthsEdge. There's no limit on how many posts you can do, and if you win we could feature your photos on our Instagram or Website! ***On average, we have 12 people on our expeditions, so you have a 1 in 12 chance of winning! Get snapping! We will select a winner approximately four weeks after each expedition!***

Expedition FAQ:

What is a typical day like on this expedition?

The following is a typical day on this expedition and most days on the route will follow this general format. However, every day is slightly different and the weather can have a huge influence too.

Wake up, sometimes at sunrise, to enjoy the spectacular views of the surrounding landscape. After a substantial breakfast, we pack up all the equipment and get ready to leave. After giving your main bag to the porters we get moving. You need only carry a small rucksack with a spare jacket, hat, sun cream, water bottle, packed lunch and camera. We move at a pace that suits the group and stop regularly for photo opportunities and rests. At around midday we break for lunch. After a healthy and energising lunch, we start moving again and by mid-afternoon we will have reached our destination. Once settled in, we play cards, explore the area and enjoy watching the sun disappear below the horizon. Meanwhile, the cooks will be busy preparing dinner using fresh seasonal local produce. After dinner the Earth's Edge expedition leader will brief you on tomorrow's adventure. That night you can enjoy the company and stories of your guides and fellow adventurers. Then head to bed for a good night's sleep to be ready to do it all again the next day!

What is the accommodation like on this expedition?

While in Delhi & Leh we will stay in locally run hotels in an effort to support the local economy. All rooms are clean and comfortable. While camping we will stay in two person tents. Our prices are based on two people sharing. It is generally possible to arrange single rooms/tents on Earth's Edge expeditions. Contact us to request a single room or tent.

What is the food like on this expedition?

Food plays a huge part in the success of our expeditions. A cook accompanies all expeditions to prepare nutritious, tasty food. All fresh produce is washed using clean water and all perishable items are kept cool. We provide balanced meals which keep participants energised throughout the expedition. We like to cook local seasonal dishes but we also cook western dishes.

Can Earth's Edge cater for my dietary restriction?

We will try our best to cater for those with dietary restrictions. If you have a dietary restriction, please state this on your medical declaration form which you will complete prior to your expedition. We will organise for you to have a suitable meal on your flight where meals are supplied by the airline. It is not possible for us to source specialist gluten or dairy free products locally. We will endeavour to provide suitable alternative carbohydrates, for example potatoes or rice rather than bread. If you want to have specialist food like gluten free bread and pasta or lactose free milk you will need to bring them with you on the expedition.

How many people can take part in this expedition?

This expedition will have an average of 13 participants.

Who is leading this expedition?

An Earth's Edge expedition leader accompanies all expeditions. Our leaders are highly experienced and skilled in expedition leadership and wilderness first aid. Local English-speaking guides work with our expedition leaders to run the expedition. Our local guides are highly experienced and very familiar with the expedition route, local history, cultures and customs of the region.

Will I get a chance to meet any of my other team members before departure?

Yes we hold pre-departure weekends about two months before every expedition. If you cannot attend the particular weekend that is scheduled for your expedition, then you are welcome to attend another training weekend. An experienced Earth's Edge expedition leader and expedition doctor will meet the group to answer questions about the trek. Most people at this stage will have questions about their equipment and will be given advice on the best way to pack for the trip. This is also a great opportunity for participants to meet one another before setting off. Around this time, you will receive a pre-departure document which will include lots of important information such as what time you need to meet at the airport and emergency contact information that you can pass on to your next of kin. Please note where differences exist between this info pack and the pre-departure document the pre-departure document supersedes.

Can participants extend their stay after the expedition?

Extensions are possible but subject to availability, contact us ASAP if you wish to extend your trip. For extension requests made at least four months before departure there is a change fee of €100 plus fare difference. For requests made between two and four months before departure there is a change fee of €150 plus fare difference. It is not possible to make an extension request within two months of departure.

What back-up support is there on this expedition?

Along with the Earth's Edge expedition leader we use local guides, cooks, drivers and porters of the highest standard. We employ local staff based on their qualifications, experience and references. Our expedition leaders are trained in wilderness first-aid and most of our local guides are first-aid trained too. Our expedition leaders and local staff are familiar with the locations of local medical services and hospitals. Where no mobile/cell phone network is available expeditions are accompanied by two-way radios and satellite phones. Our expedition leaders have 24/7 access to our office in Ireland.

What emergency procedures are in place?

A detailed assessment of risk is completed for all expeditions. The risk assessment covers potential minor and major injuries, environmental risks, political risks and evacuation plans detailing the locations of local hospitals, emergency services and airports.

What happens if someone gets sick or injured?

In the event of someone falling ill or getting injured, the expedition medic will assess and treat the sick or injured person. Often with some rest, participants can continue without a problem. If needed a guide will help the injured person to the next camp where an evacuation to a hospital can be arranged for more serious incidents. In the unlikely event of a serious incident which requires urgent hospital treatment a helicopter evacuation can be requested from local authorities. The decision to evacuate is ultimately the expedition leader's. You must respect the decisions of your expedition leader at all times. Extra costs incurred as a result of an evacuation must be paid by the participant. Your personal travel insurance must cover such eventualities.

What happens in bad weather?

In the event of a sudden change of weather conditions the Earth's Edge expedition leader will assess the situation and make an informed decision on what to do. Participant safety is always the priority in the decision-making process. Our itineraries are designed taking into consideration possible bad weather. Alternative routes and contingency plans are always in place in case of adverse weather conditions. We always aim to keep to the itinerary as much as possible but please remember that this is adventure travel and changes can occur!

What will happen to participant's luggage during the expedition days?

On this expedition, you only need carry a small bag with the essentials such as a spare jacket, hat, water, packed lunch, camera etc. The bulk of participant's luggage will be carried in a separate bag by the support team.

What happens if the airline loses a participant's luggage?

If an airline loses luggage, Earth's Edge will help report the lost baggage and chase up the airline while the participant continues on the expedition. Personal travel insurance should cover the purchase of any necessary clothes and equipment needed. Generally, the airline will deliver lost luggage within 24 hours.

What happens if a participant misses their airport connection?

If a flight connection is missed because a previous flight was delayed, the airlines will offer an alternative flight and accommodation if necessary. If this disrupts any part of your expedition, Earth's Edge will make alternative arrangements to get you back on schedule. Any extra costs incurred due to a missed connection will be covered by the airline or the participant's personal travel insurance.

Why Earth's Edge?

- Earth's Edge is Ireland's first fully licensed & bonded adventure travel company.
- Earth's Edge is 100% Irish owned.
- We send expedition leaders from Ireland with solid travel experience & who are 'salt of the earth' genuinely lovely people.
- We send doctors on all our expeditions, regardless of the difficulty or remoteness of its location. They are accompanied by a comprehensive medical kit.
- We excel at expedition planning and management. Each expedition goes through a custom-made event check-list starting 12 months before departure to ensure we do all we can to run expeditions as smoothly as possible.
- We provide excellent expedition support. All expeditions are managed from our office in Dublin and have 24/7 support from an operations and medical expert.
- We endeavour to respond to all enquiries from both current & potential participants within 24hrs.
- Our office staff are all highly qualified and boast many years of customer service and operations experience between them. Most importantly, they are keen adventurers themselves and are passionate about exploring the globe! They each take part in at least one Earth's Edge expedition a year. So, when you make an enquiry, you are speaking to an expert as opposed to a travel agent.
- We offer very inclusive packages which are excellent value for money.
- The emphasis we place on preparing our participants for their expeditions is second to none. We provide detailed informative trip documentation, medical & vaccine guidance & visa support.
- Earth's Edge hold pre-departure weekends prior to each expedition which include a full expedition brief, two training hikes and expert advice from an Earth's Edge expedition leader and doctor.
- We follow a strict environmental, social & economic responsible travel policy.
- Earth's Edge group sizes are always small. This enables us to minimise our environmental impact & it also ensures we retain the element of adventure in our expeditions that separates them from your average holiday.
